Air Quality Forecast for the UK

Issued by the Met Office

Today: Low levels of air pollution are expected for most across the UK on Tuesday. However, some pockets of Moderate pollution are possible with cold, settled conditions and light winds across Northern Ireland and Scotland.

Tomorrow: High pressure and settled conditions continuing on Wednesday, with Low levels of air pollution expected, away from any possible Moderate pockets in northern regions close to urban areas and busy roads.

Outlook: Air pollution is set to remain Low across the UK, although some areas still at risk of isolated Moderate air pollution pockets in urban areas or near busy roads.
